

Early Years Music (0-5 yrs)

"This will be the beginning of a long and beautiful relationship – once music is in your life 'hands on', it is very hard to do without!" Klio Blonz - Programme Leader, Early Years Music

The Conservatoire is passionate about high-quality arts education for children right from the beginning. Our child centred, engaging and thorough Early Years Music Programme develops music skills from first responses to group performances, while taking the first steps towards improvisation and composition. Our curriculum has been thoroughly thought and specially designed as to reach children of different backgrounds and abilities, our holistic approach catering for all needs and different ways of learning.

The programme's philosophy has come to life through researching different early years music methodologies, such as Kodaly, Colourstrings and Dalcroze and thus creating a unique approach which will help your child embark on a musical journey from birth to adulthood if you so desire.

You may of course simply choose to drop in for a term, but we hope you will want to become part of the Conservatoire family!

You'll receive fantastic focused tuition in a warm and familial atmosphere. Our class sizes are small and perfectly timed at 45 minutes, allowing for one to one interaction between tutor and child. They are taught by an exceptional dedicated team of tutors who are all both professional performers and early years' specialists and who regularly undertake professional development in this area.

Exploring music through movement and storytelling is greatly encouraged in all our classes, allowing for imagination to become the centre of children's learning, while the human voice takes central stage in everything we do.

We aim to unlock children's potential, enabling them to express their individuality while building a solid foundation for future music making.
