BUILD YOUR OWN FILM SET

DRAMA, 9.30AM-3.30PM, 8-14 YEARS

Film production offers those involved the chance to create worlds of their own. From cities under the sea, to spaceships far across the universe. From the first days of filmmaking over a century ago, filmmakers were consumed with building worlds impossible to visit anywhere other than on the big screen.

This workshop is offering you the chance to build worlds from your own imagination; crafting models and backdrops that come to life on screen - culminating in a film set in a universe built entirely from your own creativity. Our filmmakers will assist in helping develop ideas and visuals, offering techniques on how to create 3-dimensional worlds and then using green screen special effect to transport their creators into that world. This workshop is ideal for arts and craft-making skills, plus an introduction to special effect filmmaking techniques.

ILLUSTRATE YOUR IMAGINARY WORLD

ART, 9.15AM-3.45PM, 5-11 YEARS

Did you feel yourself wishing you were in another world in lock down? Illustration has the power to create new worlds, tell stories and communicate feelings. We see artists doing this in lots of places including comics and books but also in commercial illustration. In this course we will create stories from pictures, using different illustration techniques, including collage, paper cutting, stencilling and drawing. We will build cities and illustrate characters to fill our amazing imaginary space. This is a social class where we will play visual story telling games and be inspired by each other's imagination. Come create a fantasy world where everything is possible!

GET INTO COLLAGE

ART, 9.15AM-3.45PM, 18+ YEARS

Collage has existed as an art medium for centuries, with artists incorporating fashion photos, adverts, text and other materials from pop culture into collaged works. Today contemporary illustrators and artists are using collage in new and inventive ways, from using their own photos in their work, to found materials and textiles. In this workshop we will take a range of materials and digital images, juxtaposing colour, texture and text transforming them to make our own personal creations. At the end of this inspiring workshop you will leave with a collage creation based on a personal idea and image.

£50, TUTOR: SALINA JANE
